

GENERAL INFORMATION: 2023 ACL Lease and Permit Auction

The Agricultural Crown Lands Leases and Permits Regulation requires that allocation of agricultural Crown land (ACL) leases and renewable permits be by public auction.

This list may be revised prior to the start of the auction. Please check the posting prior to auction at http://resd.ca/leases_and_permits/LPproperties.aspx

Crown lands to be held under forage lease, renewable permit or cropping lease will be allocated in accordance with the Allocation and Rent Policy. This policy, and other supporting policies, can be found at: <https://www.gov.mb.ca/agriculture/land-management/crown-land/leasing-program.html>

Forage Leases, Renewable Hay Permits and Renewable Grazing Permits

Lease Term. For a forage lease, the lease term will be 15 years non-renewable at the end of the term. Renewable permits will be for 15 one-year terms in a row.

Note: Grazing use will require appropriate fenceline clearing and fencing. Fencing is considered normal agricultural practice on grazing leases.

Land Taxes: Lessees will be responsible for appropriate land taxes as billed through Real Estate Services Branch (RESB).

Forage Rental Rate.

Forage rent is determined by a formula in the regulation, and not by bids at the auction. The winning bid at auction determines who is selected to enter into the 15 year lease, where the annual rent formula is

$$\text{annual rent} = A \times B \times 3.5\%$$

In this formula,

A is the average price of beef, determined by the average sale price per hundred pound weight for the previous 36 months, ending September 30 for 500- to 600-pound heifers and steers in the province as published by Canfax (an operating division of the Canadian Cattlemen's Association);

B is the forage capacity for the land, being the number of animal unit months that the land is capable of producing in an average year, as determined by Manitoba Agriculture.

The 2023 calculated average price of beef or "A" is \$7.26/AUM. Last fall, Manitoba implemented a temporary rent reduction for forage leases. Therefore, rent in 2023 will be 50% of the calculated value or **\$3.63/AUM**.

Note: In Manitoba, an average cow (with or without nursing calf) is considered to be 1350 lbs, with a monthly forage requirement of 1.35 AUMs. To calculate the number of cows that could be supported by a parcel in an average grazing season, divide the assessed AUMs for the parcel (as identified in the advertisement) by the number of months of grazing generally supported in your region (usually 4 to 5 months), and then divide by 1.35 AUMs (the monthly forage requirement per cow).

E.g. A parcel rated at 54 AUMs could support 8 cows for 5 months of grazing (54 AUMs / 5 months / 1.35 AUMs per cow). The same parcel could support 10 cows for 4 months of grazing (54 AUMs / 4 months / 1.35 AUMs per cow).

See <https://www.gov.mb.ca/agriculture/crops/crop-management/forages/animal-unit-months-stocking-rate-and-carrying-capacity.html> for additional information.

Cropping Leases

Lease Term: A crop lease is for a five (5) year term

Land Taxes: Lessees are responsible for appropriate land taxes as billed through RESB.

Cropping Rental rate: The annual rental rate of the cropping lease is calculated as the successful bid less the \$200 administrative reserve. The minimum rent on cropping leases will be two per cent of the assessed value of the land.

Improvements

If the parcel has known improvements, the successful bidder will need to negotiate reasonable value with the former lessee. If no value can be agreed upon, the former and current lessees can proceed to arbitration.

The Auction Process:

- Garton's Auction Service is administering the registration and lease/permit auction process. The website is <https://gartonsauction.com/>.
- The auction website will display available parcels for one week prior to the start of the scheduled auction.
- Potential bidders will complete the online registration process, including a declaration of eligibility.
- 2023 auction registration will close at 12 noon on February 10.
- The auction website lists the auction rules. Examples of live bidding practice are available. Please note:
 - Successful bidders are responsible for the bid amount. Failure to execute a lease obtained in the auction will result in arrears remaining on the account and the cancellation of the lease and any other successfully obtained units.
 - FORAGE LEASE bidding will start at \$200 per unit and the successful bidder will earn the right to lease the land. Rent is determined separately via formula.
 - RENEWABLE HAY PERMIT or RENEWABLE GRAZING PERMIT bidding will start at \$200 per unit and the successful bidder will earn the right to rent the land for 15 1-year terms. Rent is determined separately via formula.
 - CROPPING LEASE: The bidding will start at \$200 plus the minimum rental amount, and the successful bidder will earn the right to lease the land at the annual rental amount via the auction bid.
 - The official listing of agricultural Crown lands available for rent can be found online at http://resd.ca/leases_and_permits/LPproperties.aspx or by contacting any Manitoba Agriculture office. Please note no new parcels will be added to the auction listing. However information on parcels can be updated, or parcels may be removed from the auction.

For additional information, please contact your nearest Manitoba Agriculture Crown Lands District Office (email at agcrownlands@gov.mb.ca) or call Real Estate Services Branch at 1-866-210-9589. Additionally, a listing of Manitoba Agriculture Crown Lands District Offices can also be found online.
