

GENERAL INFORMATION: 2022 ACL Lease and Permit Auction

The Agricultural Crown Lands Leases and Permits Regulation requires that allocation of Agricultural Crown Land (ACL) leases and renewable permits be by public auction.

Please note, this list may be revised prior to auction start. Please check posting prior to auction at http://resd.ca/leases_and_permits/LPproperties.aspx

Crown lands to be held under forage lease, renewable permit or cropping lease will be allocated in accordance with the Allocation and Rent Policy. This policy, and other supporting policies, can be found at: <https://www.gov.mb.ca/agriculture/land-management/crown-land/leasing-program.html>

Forage Leases, Renewable Hay Permits and Renewable Grazing Permits

Lease Term. For a forage lease, the lease term will be 15 years non-renewable at the end of the term. Renewable permits will be for 15 one-year terms in a row.

Land Taxes: Lessees will be responsible for appropriate land taxes as billed through Real Estate Services Branch (RESB).

Forage Rental Rate.

Forage rent is separate from the auction process, and is calculated in addition to the cost to acquire the allocation at auction, as per the following annual rent formula: ***Rent = Beef Price x 3.5% Rate of Return x Forage Capacity***

Beef price is the average sale price per hundredweight for the previous 36 months, ending September 30 for 500-600 pound heifers and steers in the province, as published by Canfax, an operating division of the Canadian Cattleman's Association.

Rate of Return is the percentage assigned by Manitoba Agriculture and Resource Development to capture a relevant rent to the province in recognition of public access, tax burden, environmental and land stewardship factors, and improvement costs. The rate of return is set at 3.5 percent and will be re-evaluated in regular intervals to ensure ongoing relevance.

Forage Capacity is the number of Animal Unit Months (AUMs) that the land is capable of producing in an average year, as determined by Manitoba Agriculture and Resource Development.

Note: In Manitoba, an average cow (with or without nursing calf) is considered to be 1350 lbs, with a monthly forage requirement of 1.35 AUMs. To calculate the number of cows that could be supported by a parcel in an average grazing season, divide the assessed AUMs for the parcel (as identified in the advertisement) by the number of months of grazing generally supported in your region (usually 4 to 5 months), and then divide by 1.35 AUMs (the monthly forage requirement per cow).

E.g. A parcel rated at 54 AUMs could support 8 cows for 5 months of grazing (54 AUMs / 5 months / 1.35 AUMs per cow). The same parcel could support 10 cows for 4 months of grazing (54 AUMs / 4 months / 1.35 AUMs per cow).

See <https://www.gov.mb.ca/agriculture/crops/crop-management/forages/animal-unit-months-stocking-rate-and-carrying-capacity.html> for additional information.

Cropping Leases

Lease Term: A crop lease is for a five (5) year term

Land Taxes: Lessees will be responsible for appropriate land taxes as billed through RESB.

Cropping Rental rate: The annual rental rate for each year of the cropping lease is calculated as the successful bid less the \$200 administrative reserve. The minimum rent on cropping leases will be two percent of the assessed value of the land.

Improvements

If the parcel has known improvements, and was recently surrendered, the successful bidder will need to negotiate reasonable value with the former lessee. If no value can be agreed upon, the former and current lessees can proceed to arbitration. The value for Crown-owned improvements is waived for this auction.

The Auction Process:

- Garton's Auction Service will be administering the registration and lease/permit auction process. The website is <https://gartonsauction.com/>.
- The auction website will display available parcels for one week prior to the start of the scheduled auction.
- Potential bidders will complete the online registration process, including a declaration of eligibility.
- The auction website will list the auction rules, and examples for live bidding practice will be available.
 - Note that successful bidders are responsible for the bid amount. Failure to execute a lease obtained in the auction will result in arrears remaining on the account, the cancellation of the lease and the cancellation of any other successfully obtained units.
 - FORAGE LEASE: The bidding will start at \$200 per unit and the successful bidder will earn the right to lease the land. Rent is determined separately via formula.
 - RENEWABLE HAY PERMIT or RENEWABLE GRAZING PERMIT: The bidding will start at \$200 per unit and the successful bidder will earn the right to rent the land. Rent is determined separately via formula.
 - CROPPING LEASE: The bidding will start at \$200 plus the minimum rental amount, and the successful bidder will earn the right to lease the land and set the annual rental amount via the auction bid.
 - The official listing of Agricultural Crown Lands available for rent can be found online at: http://resd.ca/leases_and_permits/LPproperties.aspx or updates can be received by contacting any Manitoba Agriculture and Resource Development office. Please note that no new parcels will be added to the auction listing, however information on parcels can be updated, or parcels may be removed from the auction.

For additional information, please contact your nearest Manitoba Agriculture and Resource Development Crown Lands District Office (or via email at agcrownlands@gov.mb.ca) or call Real Estate Services Branch at 1-866-210-9589. A listing of Manitoba Agriculture and Resource Development Crown Lands District Offices can be found online at:

https://www.gov.mb.ca/agriculture/land-management/crown-land/print_agricultural-crown-lands-district-offices.html
